PARK UNDER CONSTRUCTION IN SOFIA

STAT

The Sofia City People's Soviet has begun construction of a new park in Sofia on the former site of the artillery barracks. The park will cover 175 decares between boulevard General Zaimov and boulevard General Biryuzov, and from the "Stefan Makedonski" State Music Theater to the building of the Chervenkov Rayon People's Soviet.

The main entrance will lead to the center of the park, where a large statue will be placed. From the two sides of the statue, flower beds and fountains will extend the length of the park.

On the former site of the barracks, an amusement park with modern equipment will be constructed.

In the eastern part of the park, near the garden of the Poduene bath, a large open theater with a stage will be constructed.

There will be a restaurant with a wide terrace for dancing.

Near the housing projects on boulevard General Biryuzov, there will be nurseries with games and other facilities for children. Dense hedges will separate the park from the housing projects.

A wide, shady path for pedestrians will extend the length of boulevard General Zaimov. It will be equipped with benches and fountains and will have a grassy strip running down the middle.

An aqueduct, canals, and an electrical network are now being built. The ground is being leveled and paths are being marked. The paths, which will be paved with stone, will cover 23,820 square meters. Much of the work will be completed in 1953. The park will be completely finished in 1954.
